sib. Larch scantlings

Due to the sanctions against Russia, an EUTR-compliant import of larch scantlings from Russia and also from other supplier countries such as China is no longer possible.

We still have reasonable stocks and would therefore like to draw your attention to them.

In our warehouse in Bremerhaven we store:

- Finger jointed scantlings KKK
- Solid scantlings DKD

Please check your stocks and we are looking forward to your enquiry.

we look forward to your feedback
